## STRATEGIC MANAGEMENT FORUM

Strategic Management Forum offers a Management Teachers' Programme (MTP) across leading management schools in India. To be eligible for a "Six Course Completion Certificate" a faculty must attend a Foundation course of one week offered at any partner institution followed by five elective courses of one week each in any partner institution. Elective courses are open strictly to those who have completed their foundation course or will complete one before this elective. The MTP programme aims at familiarizing participants with emerging research issues in strategy so that over a period of time they contribute to research and literature development in this area.
